

Necessary cookies

Necessary cookies are used to make a website function properly, and are generally not used for tracking. They are often used for user authentication, so that a website can remember who is logged in when the user navigates to different pages or refreshes the site. Necessary cookies can also be used to keep track of items in a shopping cart, or to provide load balancing information.

Name	Domain	Duration
_GRECAPTCHA	www.google.com	6 months
Used by Google reCaptcha for risk analysis		
ci_session	.chatib.us	6 hours
This cookie is normally associated with the CodeIgniter framework for building PHP based applications. It is typically used to maintain a user state during a browser session for consistency of user experience. By default the cookie is destroyed when the browser session ends.		
PHPSESSID	www.chatib.us	Session
Cookie generated by applications based on the PHP language. This is a general purpose identifier used to maintain user session variables. It is normally a random generated number, how it is used can be specific to the site, but a good example is maintaining a logged-in status for a user between pages.		
google_auto_fc_cmp_setting		Persistent
Used by Google AdSense to store the user's cookie consent state		
_grecaptcha		Persistent
This cookie is set by Google reCAPTCHA, which protects the site against spam enquiries on contact forms.		

Analytical cookies

Analytical cookies are not essential, but they are used to collect valuable information on how a website is being used. This information can help identify issues and figure out what needs to be improved on the site, as well as what content is useful to users. In most cases, the information collected by analytical cookies is anonymous, but some analytics services may collect information that can be used to identify the user.

Name	Domain	Duration
hjSessionUser*	.chatib.us	a year
Hotjar cookie. This cookie is set when the customer first lands on a page with the Hotjar script. It is used to persist the Hotjar User ID, unique to that site on the browser. This ensures that behavior in subsequent visits to the same site will be attributed to the same user ID.		
hjSession*	.chatib.us	30 minutes
Used by Hotjar to hold current session data.		

Marketing cookies

Marketing cookies are used to track users across multiple websites, in order to allow publishers to display relevant and engaging advertisements. These cookies are typically used by advertising networks to target users with advertisements that are likely to be of interest to them.

Name	Domain	Duration
XANDR_PANID	.adnxs.com	3 months
Used by Xandr to store a unique randomly generated value that enables the Platform to distinguish browsers and devices.		
receive-cookie-deprecation	.adnxs.com	a year
Privacy Sandbox testing cookie to preview how site behavior and functionality work without third-party cookies.		
uuid2	.adnxs.com	3 months
This cookie contains a unique randomly-generated value that enables AppNexus to distinguish browsers and devices. This information is used by clients to select advertisements for delivery by the Platform, and to measure the performance of, and attribute payment for, those advertisements.
